SPECIAL THANKS

Many thanks go to the professionals at the Oklahoma Department of Career and Technology Education whose hard work and support made this publication possible, especially Larry Bullock in the Trade and Industrial Education Division. At the Curriculum and Instructional Materials Center, we are grateful for the support of Kimberly Sadler and Craig Maile. Also at CIMC, thanks to Terri Tomson for handling the contracts, correspondence, and committee meetings related to this publication.

We are also very grateful to the Marshalltown Trowel Company for providing many of the tool photographs, the Terramite Corporation for the hand screed photograph, and the Portland Cement Association for providing both photographs and expertise. Also, many thanks to GOMACO Corporation for photographs of paving equipment.

Our special thanks is expressed to the Minnesota Cement Masons Local 633 for the use of their training center and their involvement in this project.

This publication could not have been printed without the expertise and commitment of the Printing Plant staff under the supervision of Danny Darrow. Delivery of the final product was accomplished through the excellence of the Curriculum Customer Service staff under the direction of Lana Austin, and the CIMC Warehouse staff, under the direction of Darrell Stiles.

Randy Kirk
Project Manager

We would like to thank the membership of the Operative Plasterers and Cement Masons International Association for their hard work, dedication, and innovation. Their commitment to quality is reflected in the pages of this manual.

John J. Dougherty
General President, OPCMIA
